

Quality Business Solutions Local Care

In Partnership With

proactive **md**

Over half of Americans today admit to purposefully delaying or avoiding obtaining healthcare. Traditional health plans have increased on average 20-40% over recent years. Increased deductibles, inflated copays, and higher out of pocket maximums have become standard for most of America.

What if we told you that there's an affordable, alternative healthcare solution?

QBS has partnered with the Clinical Wellness Network and their nationwide network of regional healthcare clinics to offer employees and families **Quality Business Solutions Local Care**.

Local Care was founded to provide swift, accessible, hassle-free services to communities throughout the United States. Much like Netflix or a gym membership, **Quality Business Solutions Local Care** utilizes the same approach. Your budget-friendly subscription allows you access to a national network of modern healthcare clinics.

Introducing a new way to access care without compromise

While **Quality Business Solutions Local Care** is not a replacement for traditional insurance, many services do not require copays. Additionally, the costs associated with healthcare services provided are significantly less than standard health insurance plans offer. Need a school or sports physical exam? \$0. Need a flu shot? \$0. Think you broke an arm?

- › Access to care 365 days a year
- › Extensive network of facilities in South Carolina
- › As low as \$12 per week*
- › No copay, deductible, or co-insurance for most services

*Assumes 50% employer contribution
